OBJECTIVE

To secure a challenging position as a Computer Engineer, leveraging my strong analytical and problem-solving skills, along with a comprehensive understanding of hardware and software systems. Dedicated to designing innovative solutions that enhance efficiency and performance, I aim to contribute my technical expertise to a dynamic team and advance in a dynamic and evolving technological landscape.

EDUCATION

Bachelor Of Science in Computer Engineering

University Of Bohol

August 2023- March 2033

- Coursework in Completed a comprehensive set of courses in computer engineering, covering topics such as digital systems design, computer architecture, programming languages (C++, Java, Python), networking, and operating systems.
- Member of IEEE Union
- Bachelor's Graduate
- Outstanding Academic Achievement Award

Tabuan National High School

September 2022- June 2023

- With honors
- Conduct Awardee

Tabuan Elementary School

June 2016 – April 2017

- With honors

COMMUNICATION

- Software debugging
- Hardware design
- Software developing
- Computer programming
- Circuit design
